

VGS™5010 BF110P

- ▶ Patented COAX® technology.
- ▶ The suction cups are specially designed for handling larger parts, such as car body sheets.
- ▶ The soft, flexible lip makes the cup suitable for curved or uneven surfaces and the dual hardness version, PU30/60, is also recommended for rough or rugged surfaces to prevent micro-leakage, which can occur on plastic or composite work pieces.
- ▶ Available with a two or three-stage COAX® cartridge MIDI. Choose an Si cartridge for extra vacuum flow, a Pi cartridge for high performance at low feed pressure or an Xi cartridge when high flow and deep vacuum is needed.
- ▶ The three-stage cartridge will give extra high initial vacuum flow, suitable in high speed applications.
- ▶ Easy installation and flexible positioning with several mounting options.

TECHNICAL DATA

Description	Unit	Value
